

HiNet BGAN & RBGAN Promotion

BGAN Promotions

HiNet Satellite Services now offers two promotions our Service Providers can use to stimulate BGAN sales:

1. New! - BGAN FREE Airtime

Promotion

Earn a FREE USD 1000 credit on every BGAN activation from now through 31 December 2006. HiNet BGAN's clients will earn USD 1000 on BGAN activations made in September till December on BGAN airtime to begin testing all BGAN services.

How it works. Simply ask for the promotion Order from menasales@high-net.com - HiNet Satellite Services.

HiNet will apply a USD 1000 credit towards traffic generated within the first thirty days following activation. This free credit only applies to activations using HiNet's BGAN Anytime Plan or Standard Plan. This promotion can not be used in concurrence with any other BGAN promotion. For HiNet Service Providers who wish to pass this offer to new BGAN users, they can do it.

2. BGAN "Terminal Swap" Promotion

Earn up to USD 800 in savings off a BGAN terminal and airtime by turning in an old, handheld satellite phone for a new BGAN voice and data terminal from now through 31 December 2006. With BGAN, customers get the same low cost voice calls (USD 0.99 cents per minute - recommended) and "go-anywhere" portability PLUS data and Internet connectivity.

Specifically this promotion offers the following savings per BGAN terminal type:

- Save! USD 800 - Hughes (USD 500 off terminal and USD 300 FREE airtime)
- Save! USD 500 - Thrane (USD 250 off terminal and USD 250 FREE airtime)
- Save! USD 600 - Nera (USD 350 off terminal and USD 250 FREE airtime)

This promotion gives HiNet Service Providers a mechanism for increasing satellite usage and revenue with existing satellite users.

HiNet BGAN Anytime Plan

HiNet's BGAN Anytime Plan eliminates the monthly subscription fee - ideal for the occasional BGAN user.

Instead of a monthly subscription fee, users of the HiNet BGAN Anytime Plan agree to a low charge equal to 10 MB airtime per month. The 10 MB are available for use ANYTIME during the year following the month they are charged. Any unused portion from one month will roll to the next month.

No BGAN Activation Fees - Ever!

Be aware, some competitors are slashing their BGAN activation fees for a short period of time and/or for select BGAN pricing plans. HiNet, by contract, has eliminated BGAN activation fees altogether! That means no activation fees on ANY BGAN pricing packages -- saving HiNet Service Providers USD 45 per activation. This is just one of the many BGAN advantages offered by HiNet on the Inmarsat services.

Regional BGAN TOP Selling

For Service Provider able to buy more than 1500 Mbytes per month in total for all activated R-BGAN SIM through HiNet will obtain 500 USD cash. This offer is valid till the end of December 2006.
